

HOW TO MAKE YOUR WHEELBARROW WITH THE

Haunts & Harvest

PAPER PUMPKIN BOX!

Additional Tools Needed:

- Heavy-duty scissors or craft knife
- Hot glue gun and hot glue
- Stampin' Seal+ or Tear & Tape Adhesive

1. Gather the box, 2 black die-cut sticker sheets, and any additional tools you might need.
2. Unfold your box and cut along the guidelines of each piece with heavy duty scissors or a craft knife. Keep the number labels for reference.
3. Align the sides of piece 6 and piece 2 and adhere together with a long rectangle sticker. Repeat on the other side of piece 6 with piece 3. The curved edges of pieces 2 and 3 should line up with the wide end of piece 6.
4. Fold pieces 2 and 3 up and adhere a long rectangle sticker to the back seams, creating the inside of the wheelbarrow box.
5. Align piece 8 along the small edge of the wheelbarrow box and adhere across the seam with a short rectangle sticker. Fold piece 8 up and secure the back seam with another short rectangle sticker.
6. Connect the outside corners of the wheelbarrow box and adhere with short rectangle stickers.
7. Take a short rectangle sticker and, with the sticky surface on the outside, fold it in half lengthwise. Place this sticker on an inside corner of the wheelbarrow box. Do the same for the other side to complete the wheelbarrow box.
8. Take the wheel stickers and adhere to the front and back of piece 5.
9. Layer pieces 1 and 10 together and adhere to create a handle. Do the same with pieces 9 and 7.
10. Fold the edges of piece 4 inward on the guidelines. Adhere one folded side to a handle with adhesive, then wrap the connected pieces with a short rectangle sticker. Do the same for the other side of piece 4 and the other handle piece. This will look like an "H" when it's done with piece 4 acting as a crossbar between the two handles.
11. Hot glue the center of the wheel on both sides and sandwich it between the long ends of the handles. Pinch these pieces together to create a strong bond.
12. Hot glue the top edges of the handles and stick to the underside of the wheelbarrow box. Press together firmly to ensure a secure bond.
13. Place your pumpkin and apple packages in the wheelbarrow and enjoy!
